Grace period for 2016 content deposits

We are extending the time to deposit your 5TB from 2016 through **December 2017.**

2017 Deposits

- Everyone will need to sign another Deposit Agreement for 2017 deposits.
- It can be the same as your 2016 agreement if desired.
- We will have a new template soon incorporating some of the changes we made this year.

Additional TB in 2017

- Additional TB beyond 5TB will be priced at \$2,750 per TB
- This equates to \$137.50 per TB per year or \$11.45 per TB per month

Services to members and for the community

- Creating services to assist the community in moving toward the goal of preserving content
- Designing workflows for digital preservation
- Working on developing NDSR residency program
- Educational sessions to be offered beginning later in the spring
- Toolkit for making the case for digital preservation

Campus IT and Digital Preservation

- Equate digital preservation with backups?
- Lack of understanding why backups are insufficient?

Internet2 Global Summit Workshop

- Why backups alone are not a preservation strategy.
- What contextual metadata is recommended for reuse of research data and archives.
- Why multiple technical infrastructures should be included with geographic separation of your preserved data.
- How preservation costs can be lowered by establishing a national peering model.
- Leveraging the Internet2 backbone for large scale transfer of preservation content to the cloud.

Internet2 Global Summit Workshop

- Thursday April 27th 8:30-noon
- Must register separately
- Encourage CIOs attending Global Summit to register
